

The
Window Film
Specialists, LLC.

Protecting Your Investment One Window At A Time

DISCLAIMER

The Window Film Specialists LLC sells and installs the products known as Lumar Magnum and Vista that are enhanced performance CPFilms products made with a DuPont Teijin Mylar Film. While we believe our products offer a measure of impact and shatter resistance for glass windows and doors, we do not represent these as being building code approved or equivalent to the performance expected from building code approved impact resistance devices. Protecting windows and doors is one of the most important means of protecting a structure from the devastating impact of hurricanes but does not guarantee 100% hurricane resistance or insurance discounts. Local building departments and individual insurers should be consulted to verify individual property requirements.

313 Interstate Court Sarasota, FL 34240 Office: 941.371.FILM (3456) Fax: 941.377.1845
